Report:

The Department of English at Pandu College, Guwahati-12, organised the Fourth Young Researchers' Conference on the theme '**INTERSECTION OF LITERARY NARRATIVES: INTERPRETING FORMS, MEANINGS AND CONTEXTS**' on 28 FEBRUARY, 2024 at the Digital Classroom, Arts Building. More than 100 numbers of students were present there in the conference. As a part of students' exchange programme 14 numbers of students actively participated in the conference. The conference aimed to provide a platform for students to develop their research, critical thinking, and presentation skills. 16 papers were presented on various themes from their syllabus. Each presentation was followed by an interactive session. Noted writer Mr Dalim Das was the keynote speaker who delivered his speech on the topic '**The Reader and the Text: The Many Points in Literary Transactions**'. The technical sessions were chaired by Mr. Prachurjya Bora, Assistant Professor, Dept. of English Nowgong Girls' College and Dr Dhrubajyoti Malakar, Assistant Professor of Pub Bongso College.

Outcome of the Seminar: The seminar provided students with a valuable opportunity to improve their academic and presentation skills.

1. Notice:

The screenshot shows a Microsoft Teams interface. On the left, there's a sidebar with user profiles and a search bar. The main area is a chat window with a message from 'dulumoni saharia' dated Dec 13, 2023. The message contains a link to a Google Form for a quiz. Below the message is a text input field and a send button. To the right of the message is a news feed item from 'dulumoni saharia' dated Dec 7, 2023, about a new material: pteridophytes. The news feed also includes a search bar and system status indicators.

The screenshot shows a Google Forms response summary for a quiz. It displays 55 responses. The 'Summary' tab is selected, showing the following statistics:

- Average: 12.42 / 15 points
- Median: 13 / 15 points
- Range: 3 - 15 points

Below the statistics is a bar chart titled 'Total points distribution' showing the number of respondents versus points scored. The x-axis is 'Points scored' (0 to 16) and the y-axis is '# of respondents' (0 to 15). The distribution is roughly bell-shaped, with the highest frequency around 13-14 points.
